We did not. However according to Heather the document at the NOC link contains all chances either in strike out or underlined. I've attached a copy

Kelly,

Did we ever get a NOC word version from FDEP so that we could do a compare?

Thanks,

Matt

The only agenda item FDEP has for today's call is any questions we have regarding the NOC. This will give us an opportunity to ask for word doc to compare changes.

As for what we'd like to discuss, I will bring up the question of delayed implementation and if there's clarity there and for any general updates FDEP has. I also plan to follow Tom's suggestion of being ready to discuss ESA streamline edits to MOA, if FDEP doesn't have the correct people on the call we can always push to next week when we can hopefully discuss our edits in total.
